

Dear Secretary Dan and the membership of Goolawah Co-Op.

I hereby announce my application for election to resume duties as a Director for the co-op from the AGM in August 2021.

I have been a Director for 5 or 6 years now and I mostly enjoy the work involved in how the co-op is to be run, putting proposals to the membership for decisions and the discussion that goes into these issues big and small.

I feel that I bring a sensible mind to the discussion and the issues and can throw some variations into the mix.

My track record as a director has been out there for all to see, if you think that my outburst whilst under immense pressure from disruptive elements last year was too much for you to vote for me, just remember that I was the only member with multiple complaints against them to have Immediately Apologised (officially and face to face) to the membership and those directly involved in the incident.

While not being big on the paperwork (or computer work) I feel that my considered input is desirable to a majority of the membership.

While putting in many hours in directorial duties as a volunteer I also do men's shed and spend many hours on the tractor maintaining our fire protection zones and trails.

As Machinery Portfolio Director, with the mechanical assistance (really it's me helping him) of Ralph V , I do a bit of the maintenance and repair work that keeps things running in the shed. I have previously done the roads portfolio as well.

My prior experience that may be relevant is that I was a Rail worker, Bus driver, Design Student, Graphics Operator, Teacher and Union Representative.

It is my intention to maintain my efforts and to continue good management of the Goolawah Co-Op for the majority of members, which is a desire expressed to me by many members recently.
