

Poultry Management Plan

Members: Denise and Denise Cobourn

Site: 35

Date provided: 20.9.21

Poultry breed: Silky hens

Number: 5 hens, no roosters

Housing: Completely enclosed yard. Approx. 20 square meters.

Management: Chickens free range in our yard during daylight hours and are locked in overnight.

Maintenance: Poultry yard is kept clean and free from offensive odours. Waste material, including bedding and litter is composted regularly.

Food: Pellets are stored in a sealed container in the garden shed. Water is provided from a tap on a pump into a container with a float.

Drainage: There is no waste entering neighbouring properties or the dam.

Approved at General Meeting: _____ (date)

I/we agree to submit an updated plan if there are changes to the above.
