

## **Introduced Animals Management Plan**

**Member/s:** Leah Skinner and Justin Bollard

**Site:** 22,23

**Date:** 14/10/23

**Reason/s for having the animal/s:** Permaculture and food

**Species / Breed / Gender:** Chickens and Ducks

**Number:** 7 hens, 1 rooster, 5 Indian Runner Ducks

**Care and welfare:** Fed, watered and clean chicken run

**Range and containment:** Chickens kept in secure chicken run, Ducks trained to stay on sites and between our dams

**Protection of the Environment including Native Flora & Fauna:** These animals don't have a negative effect on native flora and fauna, but are used to help create a well balanced permaculture system

**Waste and maintenance:** Poop goes on garden beds

**Noise and other impacts on people:** Rooster in shed at night with hens with no complaints of noise for the past 15 or so years

**Removal of animals:** Any deceased animals buried or composted
